

ProjectPARK

IMPORTANT PARK FEATURES FOR: **CHILDREN**

ProjectPARK: a study with children 8-12 years to identify the park features they consider to be most important for their park visitation, park-based physical activity and social interaction (2017-2020)

30 completed a walk-along interview in a park to discuss park features

272 rated 42 photos of different park features

252 completed a survey to identify the relative importance of park features

**TOP
10**

FEATURES THAT ENCOURAGE CHILDREN TO VISIT PARKS¹

- 1 Large adventure playground
- 2 Giant slides (i.e. long curly slide)
- 3 Interactive areas (e.g. touch-sensor illuminated statues)
- 4 Obstacle course or parkour area to climb on
- 5 Long flying fox
- 6 Things to climb (i.e. climbing structures)
